

Is this  
**elevator**  
worth your money?

Place a coin on the slot above and  
operate panel on right to find out.

Of course,  
it delivers much **more**

**Value for money.**

Sometimes you don't find it where you most expect - big corporations. Just ask their clients. They will talk of lower interest levels if the order is not large enough. Or of delayed response to service requests. So, big names are no guarantee of value. On the other hand, smaller companies with fire in their belly surprisingly deliver big.

This is a glimpse into one such company, into the other side of the coin, so to speak. Something sure to give your project a **lift**.

LIFTS LTD.

Advantages you can

Count on

Express Lifts give you more.

Choice of a wide range of traction, hydraulic and special-purpose elevators. Expertise developed over many years of executing and managing large, traffic-intensive installations. Cost-efficiency from innovative technologies, pre-installation studies, feedback mechanisms and streamlined workflows. And assurance of a robust dealer and technical service network, especially across western India.

So, plot your grand vision. Because, however complex the project demand, you will find that we measure up.

Our only one product:  
satisfacti  n

**Our work philosophy?**

Deliver delight. Something you tend to experience with us because of many things. Our commercial and production 'heart' at Ahmedabad in Gujarat, the business capital of India. Our robust 'backbone' of components suppliers and vendors, known for their ability to deliver on specifications, quality and time. Our well-developed 'muscle' of dealers, selected for their established market strengths. And our skilled 'hands,' our sales and technical guys.

You see, we are an enthusiastic 'body' of people looking to surprise you. And fill your life with **smiles**.

We make buildings

look better

**Buildings need to outshine others.**

Dazzle and captivate the eyes. Possess the oomph to make it inviting. Like its elevation, the first point of eye-contact. However, once the visitor is inside the premises, it is the elevator which either reinforces or lets down the first impression. Time spent in it is idle enough for people to look around and form opinions.

So, give them importance in your plans. Install great-looking elevators. And give buildings what they need – distinct style.

surprising value

# technology:

only the best is good enough.

#### Technology is the key.

The substance behind the style. So, we go for the best. Be it traction or hydraulic elevators. Our traction elevators have pulleys and parts designed for the smoothest operations. Hydraulic elevators have internal components by well-known European manufacturers for the greatest safety, speed and power. User interface devices like operating panels score high on user-friendliness and looks.

When it comes to technologies that wow, we do the one thing we know – **push it.**
